PERPETUAL BUILDING ASSOCIATION.

Surpius or interest fund. 78,656.27

Total present assets. 689,882.77

Increase of assets in past year 235,107.18

The end of the first ten years of the Association finds it in a flourishing and vicorous condition. Our bus ness during the year has been immense, averaging close ness during the year has been immense, averaging close to \$50,000 monthly. As our operations are entirely confined to the District, having no branches nor "agents" outside, this immense business shows well for the prosperity and enterprise of the city of Washinston. Our association presents the best opportunity for the public to place their savings as to amount of interest paid by us and the immediate availability of the money. We are paying 5 per cent per annum on shares when withdrawn before maturity; 12 per cent per annum on shares matured. We are now redeeming the first and second series at 12 per cent per annum; the third series maturing in March of next special payments of amounts up to \$5,000, or any less sum, and paying 6 per cent per annum, payable

Our advances to members are at very reasonable rates and are a great convenience to those buying or building; every sort of accommodation is extended to members in borrowing or in repaying of advances. \$150 is advanced to each share on \$2 monthly pay-ments; \$750 on 5 shares, \$10 monthly; \$1,050 on 7 shares, \$14 monthly; \$1,500 on 10 shares, \$20 monthly; \$3,000 on 20 shares, \$40 monthly. Economy in expenses is our watchword. Just think of it, in ten years our total receipts have been \$2,054,034.25, and our expenses in those ten years, for salaries of officers, for rent of offices, for advertising and for every other item, have only been \$400. aries of officers, for rent of offices, for advertising and for every other item, have only been \$16,472.00. This is a great thing in a Building Association, this keeping down the expenses; the less the expenses the more the profits to the stockholders.

The new series, the 11th, commences in November. Shares can be had at all times and no back dues required at \$1 per month per share. Office at 506 11th street. Our annual meeting Wednesday evening, November 4.

THE EDISON MIMEOGRAPH, AND
WHAT IT IS GOOD FOR.

It is the most practical machine yet invented for
reproducing handwriting and typewriting. Retail
stores use it in printing unographic circulars and
sending them direct to their customers soliciting
trade. This method of advertising brings excellent
results. Can also be used in printing yeur office
stationery, &c. Secretaries of lodges and societies
use it for printing notices of meetings and informing memoers of general business transactions.

Ministers and Sunday school superintendents use
it for printing their Sunday school reading and for
vestry work, programs of church entertainments.
&c. Hotels and restaurants use it for printing their
their bill of fare. Manuacturers use it to send out
circulars instructing their agents, giving there
prices of materials, &c. If you wish to get out
1,000 or 2,000 circulars for any especial purpose
all you have to do is to write your letter in your own
handwriting and put it on the amendraph and
take therefrom as many copies as you wish. Each
and every one will be an exact counterport of the
original. Why not drop in and look at this novel
invention? It is not expensive.

PURE LOGIC. A cheap tailor-made suit is really very little better than ready-made clothing. All my custom-made garments are far superior to the ready-made article, consequently with them in price. When you leave your order here you receive a suit embodying the best results of skilled workmanship upon fine materiais. Price, \$35, \$40, \$45 and \$50; higher than ready-made because you desire better quality and more style. The best always costs money, but it is the best. GEO. T. KEEN

result of the contest for the Ohie senatorship, but he supposed Sherman and Foraker would each make an active fight. When he was in Ohio, he said, he heard nothing of the proposition to dispute the legality of Brice's election to the Senate. It might be, however, that the United States Senate would reject him. Congress would not in December and the Ohio legislature meet until January, so that there would be time enough, he said, if Brice were turned out by the Senate for the legislature to elect his successor when they elected the successor to Sherman.

THE BRAZILIAN TROUBLE. Advices Received by the State Depar

Advices Received by the State Department in Regard to It.

There is no doubt about the truth of the Brazilian trouble. The State Department received a cablegram last night from Mr. Conger, the minister of the United States at Rio Janeiro, confirming the London dispatches. He amnounced that the government had been put into the hands of a military dictator, and that the country was under martial law. There were few details in his message, but it is understood that he stated that the disturbance is a part of a plot in behalf of the monarchical party of Brazil, in other words that it is a re-GOVERNMENT RECEIPTS TODAY. - Internal reve-MR. The theory that this coup was not anticipated in any way seems to be confirmed by these movements of the minister, who would doubtless have hurried at once to the neighborhood of the State Department immediately upon arriving in order to be supplied with facilities for conducting his correspondence with both governments, instead of isolating himself in the mountains, had he possessed any idea of the danger that threatened.

Sibert, corps of engineers. First Lieut. Stephen Y. Seyburn, tenth infantry, will report in person to Col. Robert A. Crofton, fifteenth infantry, president of the examining board at Fort Wayne, Mich., for examination for promotion. The United States is affected by the flurry, according to department officials, in two ways. In the first place the permanence of the new reciprocity treaty is threatened, and it is an open question whether the English or the American influence will predominate in the new Brazil. Then the matter of the American interests that are vested in Brazil is important, as such interests invariable. NAVAL ORDERS .- Lieut. S. P. There are but two men-of-war now stationed in the south Atiantic waters, the Tallapoosa, which is stack in the mud in the river La Plata, and the Essex, which is now at Montevideo. The U. S. S. Boston, on her way to Chile, will doubtless be stopped at Bahia, on the northeastern corner of Brazil, and the Yorktown, also en route to Valparaiso, may be caught at Montevideo. The fight between President Fonzeca and congress has reached a culmination. For quite a time their differences were over financial matters. The president used the veto freely on matters pertaining to this important subject. Recently an attempt had been made to curb the power of the chief executive. The fact that Fonzeca was a military man has led many to fear that he might proclaim himself dictator. To prevent any such contingency congress passed a law fixing the process of impeachment of the president. Fonzeca vetoed the measure. be straightout on the tariff question.

Secretary Foster said to a Star reporter to-day that the democrats of Ohio had repudiated the free coinage plank in their platform almost as soon as the campaign opened, and that the battle had been fought and won by the republicans on the tariff.

"I do not believe," he said. "that the silver question influenced 500 votes, though I am sure that had that been kept as the issue they would have lost on it. I do not think a demo-cratic convention in Ohio would ever again adopt a free coinage platform, but that had practically nothing to do with this fight."

"What do you think will be the effect of the Tuesday elections generally?"

"I think the result shows that the west can be relied on to vote for the republican party."

It is not only approved by the entire liberal party, but that the leading members of the other parties acquiesce in his selection, believing that it will tend to consolidate the best interests of the country. It is further believed "I do not believe," he said "that the filver question influenced 500 votes, though I am sure that had that been kept as the issue they would have lost on it. I do not think a democratic convention in Ohio would ever again adopt a free coinage platform, but that had practically nothing to do with this fight."

"What do you think will be the effect of the Tuesday elections generally?"

"I think the result shows that the west can be relied on to vote for the republican party and that the contest in '92 will be in New York, Indiana, New Jersey and Connecticut, as formerly We shall fight over the same old ground, with tariff as the issue."

Admiral Montt was a pronounced opponent

tory to both nations.

Admiral Montt was a pronounced opponent of the late President Balmaceda, and upon the breaking out of the revolution he took command of the congressional fleet. It was owing in a great measure to his action that many other naval officers deserted Balmaceda and joined the revolutionists.

The president-elect is extremely popular with all classes and his election is hailed with much satisfaction on all sides.

MORE CHILEANS ON WATCH. Spying on Minister Egan's Residence in Sar

LONDON, Nov. 5 .- The Chilean question was made more interesting today by a telegram from Valparaiso stating that the government had doubled the number of watchers in the vicipity of Minister Egan's residence at Santiago. The Chileans appear to be on the look-

a part of a plot in behalf of the monarchical party of Brazil, in other words that it is a reaction in favor of the re-establishment of the empire.

THE MOVEMENT A SURPRISE.

This is somewhat of a surprise here, as it was understood that the republican theory had taken too firm a hold upon the people of Brazil to be shaken by an attempt on the part of the few adherents of the exiled emperor. The first news yesterday was received here with a good deal of disselief, and though the State Department remained negatively silent, the bureau of American republics, which is supposed to have a very wide range of information, exhibited a tendency to laugh at the report.

The Brazilian minister, Senor Mendonca, recently arrived in New York from Brazil and has since been up in the Adirondacks. No one at the legation housefon Massachusetts avenue will probably hasten back to his post as soon as he receives the news from Brazil.

Berlin, Nov. 5 .- It is reported that the kaiser has caused Bismarck to be notified that any attempt to reveal facts or documents connected with affairs of state during his ministry will be followed by prompt and earnest prosecution. This warning has been given in view of the current statements that Issmarck intends in the reichstag to present certain evidence as to the causes of his dismissal from the chancellorship.

The Vote in South Dakota. Madison, S. D., Nov. 5 .- As there are no tabulated returns of previous votes in this state by precincts it is difficult to form definite estimates of the total vote of the state from incomplete returns, but in two-thirds of the cities of the state already reported Jolley, republican, has a majority of 2,000 over Smith, independent. Wood, democrat, cuts no figure in the race. In 200 rural precincts returned Jolley has an average of 24 and Smith 18 votes. This proportion carried out would give Jolley 5,000 votes over Smith in the country, which, added to his city vote, would give him a total plurality of 8,000 over Smith, with a good margin for loss. The total vote of the state will be less than 40,000.
